Bremerton Raceway Racers:

Hi. Dennis Boley here to talk a little.

WOW!!!! Thank all of you racers who braved the Northwest weather to attend the 2019 Season Opener. I was overwhelmed by the support.

I also want to thank you for understanding and the support I got for the decision to call the race. My starter (Jack Stutler) and I felt the track was not safe due to the extreme cold and the recent rains. I did discuss the issue with some racers whose input I value greatly, and I appreciate their input.

I should also mention that without the help of the workers and volunteers, we would not even be racing. I will not list them here, but when you see them, please let them know they are appreciated.

On another note, I have completed the track rules that I discussed at the driver's meeting. I will have them posted on our website.

Thank you for supporting Bremerton Raceway.

See you at the races.

Thanks,
Dennis Boley
